

# Gentlemen

luxury British grooming comes to Hong Kong

GENTLEMEN'S TONIC is now open in the heart of Central. The renowned and exclusively men's only brand provides the best of what Britain has to offer in grooming and lifestyle services. Founded in London's Mayfair, Gentlemen's Tonic affords the modern man a traditional barbershop and a variety of lifestyle and grooming services.

The new Hong Kong branch is located at the recently launched Landmark Men, The Landmark's basement floor dedicated to men. The exclusively men's salon is comfortable and stylish with wood, leather and marble furnishings, where clients can sit back, relax and enjoy their private haircutting stations and treatment rooms along with access to the Internet, TV's and a selection of newspapers and magazines.

# men's TONIC

Grooming experts are on-hand and treatments include a traditional barbershop service through to waxing, facials, pedicures and therapies such as hot stone, massage and reflexology. Specially formulated packages have been created based on famous male personas such as Shackleton, Edison, Hemingway, Valentino and more. The Shackleton offers haircut and finish, beard trim or the ultimate wet shave for the intrepid traveler or The Edison's Indian head massage, revitalising eye treatment and express facial.

Gentlemen's Tonic was launched in London in 2004, and now has four London establishments, Mayfair, Selfridges, Park Lane and Gieves & Hawkes, with further sites opening in late 2011/2012.
